

Quinces Coach Group Day Tour 2006

Western Treatment Plant

Discover a different side to Melbourne

Werribee's **Western Treatment Plant** is a tour destination with a difference. Visit one of Melbourne Water's amazing sewage treatment plants, which began operation over 100 years ago, and discover the fascinating methods that are involved in treating our wastewater.

Begin your visit at the discovery centre. Morning tea is provided while you explore the centre. We then commence a two-hour coach tour of the 10,851 hectare property, where you will follow the incoming sewage to its outfall into Port Phillip Bay. See the protected wetland of Lake Borrie, a haven for tens of thousands of birds and is recognized as one of the worlds most significant wetlands. and the largest stock farm in Victoria, where sheep and cattle graze the high quality irrigated pastures. After your tour enjoy lunch at the Werribee RSL before returning to your club rooms.

Our coach will collect your group at 9:00 a.m. and return you by 4:00 p.m.
